

LEOPARD | 45

## LEOPARD | 45

Following the success of the Lounge version of the award-winning Leopard 50, we are excited to introduce the Leopard 45 now with a flybridge lounge.

An elegant breed of catamaran

---

Like her big sister, The Leopard 50, the innovative flybridge on the Leopard 45 includes a lounge area with L-shaped settee with backrest & cushions, a sunbed mattress, table, and triple beverage holder.

Access to the flybridge is provided by floating stairs leading up from the aft cockpit, without disrupting the helm station.

The helm station remains well protected, and integrated into the cockpit and the rest of the boat.

With naval architecture by Simonis & Voogd Yacht Design, and with exterior and interior design by the world-class design team at Robertson and Caine, the Leopard 45 Sailing Catamaran builds on the best features of the current Leopard range.

Two immediately noticeable areas are the exterior styling and interior accommodation.

True to the Leopard pedigree, the Leopard 45 emphasizes functional open spaces and ease of handling while building on design features that have become standard on the modern cruising catamarans. From your chosen layout to the interior and exterior colors, you can customize your Leopard 45.

# CRAFTSMANSHIP

## 25 Years of Production Expertise

Designed for a modern, blue water lifestyle, the Leopard 45 features a raised helm station covered by a hardtop bimini, with direct access from the cockpit and side deck. All sailing lines lead to easily accessible winches, the primary winches being electric, and operated by footswitches.

The exterior styling has evolved into a sharper, more angular look, topped by a sleek new saloon hard top, which extends from the aft cockpit to the forward cockpit.

Spacious, practical and protected from the sun, the aft deck offers the perfect entertainment area

with its ample seating and a clear natural flow through the open plan saloon. Accessible via a weather tight door, the increased forward cockpit provides easy access to the fore deck and trampoline. Additionally, the forward cockpit allows for superior ventilation naturally throughout the boat.

# INTERIOR

## The Perfect Blend of Comfort and Style

The Leopard 45 has been overhauled with full wrap around panoramic windows, a saloon size overhead skylight and enlarged hull windows. The interior design is modern and simple with an elegant, light finish and grey accent panels. The increased volume of the saloon provides ample space for on-board entertaining.

In the 3-Cabin version, the entire starboard hull is dedicated to a spacious owner's suite with a master cabin, study desk/ vanity and a private head with a large shower stall. In comparison to it's predecessor, the volume below deck has been increased, making it open and unrestricted.

The boat is comfortable, private and well-ventilated from multiple points. The atmosphere is enhanced by natural light provided by the enlarge hull windows, portlights and deck flush hatches.

# COMFORT

## Increased space and innovative design

At Leopard we favor a clear, natural flow. The Leopard 45's increased area, ergonomically designed open plan saloon and galley, increased forward cockpit and more onboard area make her the ideal catamaran for guest entertaining as well as long-range cruising.

The modern galley boasts corian countertops, a stainless steel sink with single lever mixer faucet with pull-out spray, a two drawer, front-opening stainless fridge and freezer, as well as a three burner stove top and oven.

Onboard entertaining is accentuated with ample dining space, and forward facing L shaped seating communicating directly with the galley, situated forward. Wide sliding saloon doors afford panoramic views towards the stern, allowing the interior saloon to flow naturally towards the outside aft and forward cockpit.

The boat is flooded with natural light during the day and after sunset, illuminated by subtle hidden lighting, with individual spotlights to highlight certain areas.

# INNOVATION

---

## The Leopard Leap

With uncompromised and exceptional build quality, and a pedigree of over 1800 blue water catamarans, Leopard has set the standard for cruising catamarans.

Despite its larger living areas and its higher level of sophistication, the Leopard 45 is faithful to its pedigree of robust, easy to maintain, easy to maneuver, blue water catamarans.

# SPECIFICATIONS

The Leopard 45 is available in either a 3 cabin, 3 head version, or a 4 cabin, 4 head version.

Both layouts offer the option of additional storage, berth, or head in the forward hull.
